### HOW TO MAKE MONEY IN THE STOCK MARKET

#### SANTA FE GOLD'S (SFEG - \$0.095) UPDATE RECEIVES \$2.7 MILLION FINANCING

Santa Fe Gold announced its most important announcement of the year. This announcement of the Company's receiving \$2.7 million of financing will kick start development of SFEG's many valuable claims.

"ALBUQUERQUE, N.M., Aug. 18, 2017 (GLOBE NEWSWIRE) -- Santa Fe Gold Corporation ([SFEG](#)), a U.S. based mining and exploration enterprise with emphasis on Gold, Silver, Copper, Precious, Industrial and Base metals and owner of multiple claims, including the Malone Mines complex incorporating 20 associated mine sites, the Playas Lake Bed area of Hidalgo County, New Mexico and a mine opportunity with a potential major Porphyry Silver discovery, is pleased to announce it has received in excess of \$2.57 Million converted to equity at prices close to market quotes from a private overseas investment company and a number of associated investors.

This will enable the company to move ahead quickly to complete acquisitions of various properties previously reported as under acquisition, details of which will be announced shortly.

President and CEO Tom Laws Comments:

"This reflects a strong commitment and confidence in the future of Santa Fe Gold coming from a highly regarded investment source as the company continues to progress towards a restart of production per our previously announced plans around asset acquisitions and production ramp-up at a particularly opportunistic time for gold, silver and precious metals".

SFEG has gone through a long and frustrating time period before its stock becomes available on Edgar.

Both this financing announcement and the current price of gold at 1299.70 bode well for the intermediate and long term prospects of the Company.

We expect that SFEG will also announce other claims as it expands its portfolio.
