HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET TRUMP'S ELECTION

Our readers and clients have asked me what I think of Trump and business.

Everyone has an opinion of Donald Trump as an individual. My views about him as a human being are that everyone is entitled to their opinion. I keep my opinion to myself. Anyone can view Trump's behavior and make their own judgments.

Our website is targeted at making money in the Cannabis Stock market. I see Trump as good for business.

My other businesses target making money in other markets.

I see the Trump Administration as very good for the US economy and the stock markets.

To the extent that the general stock markets do well, so should quality cannabis stocks participate in a Bull Market.

The longer term of our nation in my view depends on the US deficit. This is what the 2016 election was really all about.

Studies indicate that over time, Trump will increase the \$20 trillion dollar deficit.

It will take time, but in the meanwhile, people should make a lot of money in the US stock markets.

Jobs are a big issue. The truth about jobs is that the USA has lost jobs to those countries who are lower cost producers. They will not return to our country. Nobody in Washington can create jobs that have vanished. Ivanka Trump makes a fortune with far eastern labor. There are no jobs here that can compete with China.

The results of the Trump administration will be seen in 9 months or so. At that time we will begin to get a fix on his Cabinet and the state of the US economy. In the meanwhile, hang on your hats. This market should go up.
